

TABLE OF FIGURES

- Table 1. First Generation Systems in selected countries
 - Table 2. FDD channel parameters
 - Table 3. TDD Mode uplink-downlink configurations
 - Table 4. Reference symbol location for the PUCCH channel
 - Table 5. LTE Frequency Bands
 - Table 6. Operators and Spectrum Bands - Europe
 - Table 7. Operators and Spectrum Bands - Worldwide
 - Table 8. LTE channel bandwidths
 - Table 9. Allowed LTE band and channel bandwidth combinations
 - Table 10. Downlink Physical layer parameters for UE categories
 - Table 11. Uplink Physical Layer parameters for UE categories
 - Table 12. Target values for LTE-A spectrum efficiency and cell edge throughput values
 - Table 13. Cell Spectral Efficiency
 - Table 14. Cell Edge User Spectral Efficiency
 - Table 15. Mobility Classes
 - Table 16. Traffic Channel link data rates (uplink)
 - Table 17. Handover Interruption Times
 - Table 18. VoIP capacity
 - Table 19. Original LTE Requirements
 - Table 20. T-Mobile Spectrum Resources in Germany
 - Table 21. Vodafone Spectrum Resources in Germany
 - Table 22. Telefonica O2 Spectrum Resources in Germany
 - Table 23. E-Plus Spectrum Resources in Germany
 - Table 24. NTT DoCoMo Spectrum Resources in Japan
 - Table 25. KDDI Spectrum Resources in Japan
 - Table 26. Softbank Spectrum Resources in Japan
 - Table 27. eMobile Spectrum Resources in Japan
 - Table 28. SK Telecom Spectrum Resources in South Korea
 - Table 29. KTF Spectrum Resources in South Korea
 - Table 30. LG Telecom Spectrum Resources in South Korea
 - Table 31. TeliaSonera Spectrum Resources in Sweden
 - Table 32. TeleNor Spectrum Resources in Sweden
 - Table 33. Tele2 Spectrum Resources in Sweden
 - Table 34. Hi3G Spectrum Resources in Sweden
 - Table 35. Vodafone Spectrum Resources in the UK
 - Table 36. O2 Spectrum Resources in the UK
 - Table 37. T-Mobile Spectrum Resources in the UK
 - Table 38. Orange Spectrum Resources in the UK
 - Table 39. 3 Spectrum Resources in the UK
 - Table 40. Mobile Network Operators in the USA
 - Table 41. Mobile Network Equipment Suppliers, Worldwide market shares
 - Table 42. Results for the first China Mobile's infrastructure tender
 - Table 43. Results for the second China Mobile's infrastructure tender
 - Table 44. Japanese handset vendors & mobile operators - handset delivery matrix
 - Table 45. Selected Mobile Network Operators and their expected LTE launch dates
 - Table 46. LTE subscribers - worldwide, 2009-2013
 - Table 47. Largest LTE market areas in 2013
 - Table 48. Largest LTE network operators in 2013
